

Speaker Isolation Unit

USER MANUAL

Part #CBSPKISO
Rev: 1.0.1

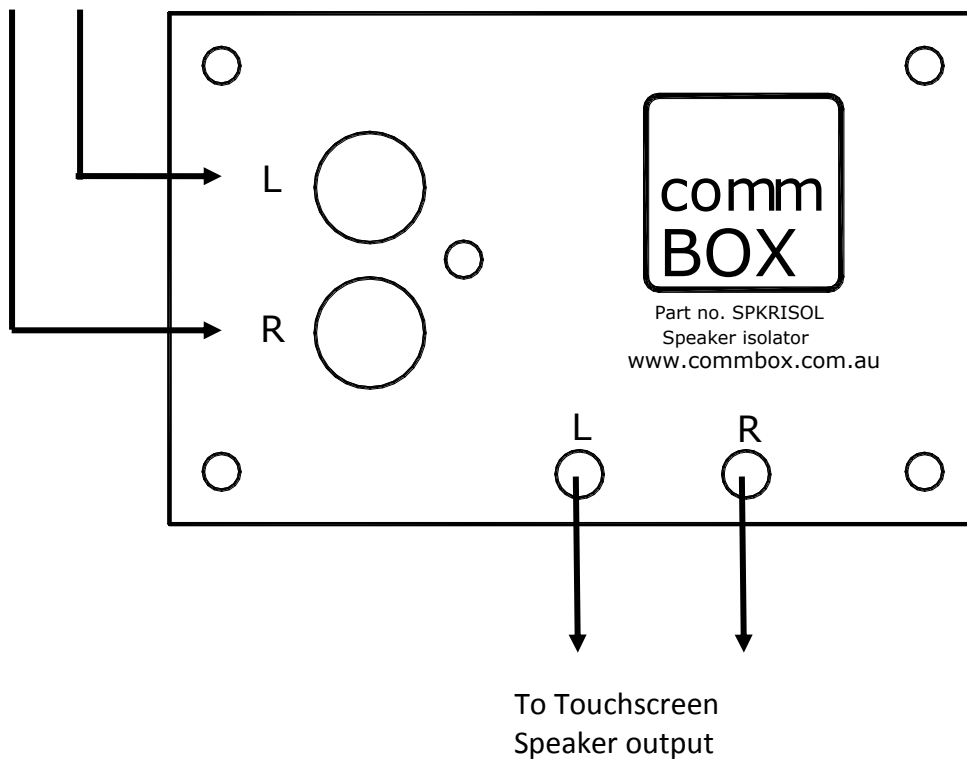

Introduction

The CommBox Speaker Isolation unit has been design so that existing amplified speakers can be connected to the CommBox touchscreen.

The unit comes with the 3.5mm Mono cable and connectors for quick and easy installation. All that is required is for the existing red and white RCA leads from the amplified speakers to plug in.

RCA leads from Powered (Amplified)
Speakers
